

OUR HEALTH AND SAFETY PROTOCOLS

Over the last year, Carnival Corporation focused on resuming operations both quickly and safely in a manner that prioritized public health while positioning all of our sailings with effective protocols for COVID-19.

We achieved all of this while reinforcing our commitment to compliance, environmental protection and the health, safety and well-being of our guests, the people in the communities we touch and serve, and our shipboard and shoreside employees.

Check out our latest health and safety protocols we follow on sailings in the U.S.

VACCINATED GUESTS & CREW

All guests 12 and over must be fully vaccinated to sail. Guests 2 and over must present a negative COVID-19 test before boarding and shipboard employees are tested regularly.

ENHANCED HEALTH SCREENINGS

All guests will be asked to complete an online health questionnaire 72 hours prior to sailing and undergo enhanced pre-embarkation health screenings, which will include confirmation of their health screening responses, validation of their vaccination documents and any required COVID-19 testing.

MASKS ARE OPTIONAL

Masks on board are recommended but not required indoors or outdoors. We highly recommend guests wear a mask when in large congregate events although guests are not required to maintain physical distance on board the ship.

ON BOARD OUR SHIPS

All staterooms and public areas are frequently and thoroughly sanitized with medical-grade disinfectant proven to kill coronaviruses. Hand-washing stations and hand sanitizer dispensers are available throughout every ship. Additionally, We have enhanced the air-handling systems on board all ships using a combination of increased circulation of fresh air together with upgraded air filtration.

GOING ASHORE

Keeping you safe on shore is one of our highest priorities. All ports welcome shore excursions and while some ports allow independent tours and self-exploration, others may require a shore excursion provided by the cruise line to go ashore. Throughout your cruise, we constantly review all local health and safety guidelines to keep you informed and ready to explore safely.

WHAT HAPPENS IF SOMEONE SHOWS SYMPTOMS OR TEST POSITIVE FOR COVID-19

In the event guests are in close contact with or exposed to anyone who tests positive for COVID-19, or display any symptoms for a COVID-like illness during the cruise, they and their close contacts will be required to undergo additional testing and may be required to quarantine in their stateroom until our medical team determines it is safe for them to resume their cruise activities.

GLOBAL CASINO OPERATIONS

Terms & Conditions

Our cruise lines will operate these cruises consistent with CDC guidelines, with exceptions as required by law. Consult <https://wwwnc.cdc.gov/travel/notices/covid-4/coronavirus-cruise-ship> for the latest CDC cruise travel advice, warnings and recommendations.
